

The AGA Classic

The AGA Classic is the closest expression of the original AGA refined for today. It carries forward a way of cooking shaped by time while also offering the flexibility modern life demands.

At its heart are cast-iron, heat-storage ovens designed to always be ready when needed. Control is intuitive and thoughtfully designed. With four settings, including slumber mode and high, the AGA Classic adapts effortlessly to every style of cooking.

Rooted in tradition and shaped for the present, the AGA Classic continues a legacy of enduring design and lasting performance.

KEY FEATURES

- Three cast-iron ovens for roasting, baking and simmering which operate together
- Twin hotplates for boiling and simmering, which operate independently of each other and the ovens
- Fully electric and compatible with solar and renewable energy
- AGA-branded stainless-steel handrail
- Choice of enamelled or stainless-steel hotplate lids
- Create a more personal configuration with optional 50cm and 60cm AGA Extension Modules, allowing your cooker to be extended to 150cm, 160cm or 210cm
- Altrashell® coated cast-iron ovens for a durable, easy-clean finish
- Choice of room vented or externally vented

LAYOUT / CONFIGURATION

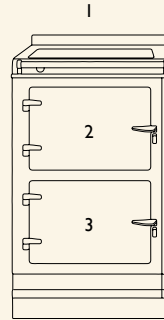

Key	Function
1	Boiling plate
2	Simmering plate
3	Cast-iron roasting oven
4	Cast-iron simmering oven
5	Cast-iron baking oven
6	Controls

Extension Module options

50cm AGA Extension Module

The 50cm AGA Extension Module is a natural addition to your AGA cooker and allows you to build a configuration that suits both your space and the way you cook.

A slow-cook oven allows dishes to be prepared gently over time, while a warming oven keeps food ready to serve. Above, a choice of a warming plate or single-zone induction hob.

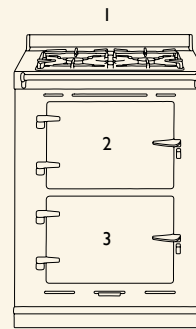

Key	Function
1	Choice of warming plate or single-zone induction hob
2	Slow-cook oven
3	Warming oven

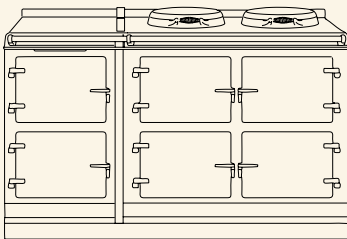

60cm AGA Extension Module

The 60cm AGA Extension Module extends the capability of the AGA, bringing together a slow-cook oven, grill and fan oven with a ceramic or gas hob.

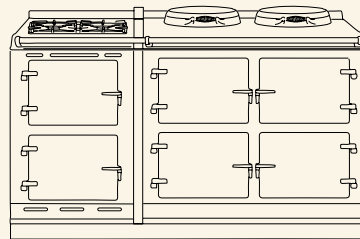

The slow-cook oven allows for gentler, more patient cooking, while the grill and fan oven offer immediate, responsive heat when needed.

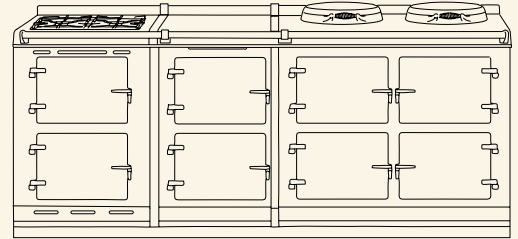

Key	Function
1	Choice of gas or ceramic hob
2	Slow-cook oven / grill
3	A-rated fan oven
